

Digital Support Technician Apprenticeship Standard

Apprenticeship

The broad purpose of a Digital Support Technician is to maximise the effective use of digital office technologies, productivity software, digital communications, including collaborative technologies, and digital information systems to achieve objectives. They will select one of the following two options:

Digital Applications Technician: A Digital Applications Technician helps their organisation and its internal users to maximise the use of digital technologies and adapt to and exploit changes in technology to meet organisation objectives and maximise productivity ensure effective use of digital office technologies, productivity software, digital communications, including collaborative technologies, and digital information systems to achieve objectives.

Digital Service Technician: A Digital Service Technician supports the external customers and clients of their organisation through a wide variety of digital channels, to help them access and receive services, to coach and support them in their use of the digital systems; to support them to complete and submit information remotely and to diagnose and resolve their problems in relation to their access to and use of the digital technologies.
